Work On Shortcut Slated Soon With Funds Available

FAS Funds Allocated For Truckee Project At Board Meet

Work on realigning and resurfacing the Nevada County portion of the Brockway cut off road will get underway in the near future if plans announced this week by Supervisor H. G. Loehr are carried out.

Loehr said he had been assured at the last meeting of the board of supervisors that $77,500 will be made available from the $135,000 FAS road fund. Of this total, $52,000 has been estimated for the cost of the Brockway job, with another $10,000 available from the regular primary construction budget of the county.

Also included in this year's project, Loehr said, will be new roads in the Meadow Park area as well as the regular maintenance and snow removal apportionment.

It is proposed to meet the specifications on the Brockway shortcut set by Placer County in realigning and surfacing the road in that county. It was also announced that Placer County will continue its work on the important lateral during the coming summer.

McMahon Resigns Lake Chamber Post

TAHOE CITY — Robert J. McMahon, recently appointed as housing director for the Olympic Organizing Committee, has resigned his post as president of the Lake Tahoe Sierra Chamber of Commerce, effective March 23.

McMahon promised to continue to work for the best interests of the chamber but stated that the stress of his new position makes it impossible to devote the required time to the chamber office.

McMahon had agreed to remain as head of the chamber until the award dinner during which awards were to be presented to Prentis C. Hale and Joe McDonald, selected as the men who have contributed most to the Lake Tahoe community.

Hale is president of the Olympic Organizing Committee and McDonald president of the Nevada-California Lake Tahoe Association.

His body was not found, however, until 7 a.m. Friday.

Captain Richard B. Langner, Auburn area commander of the CHP, said Williamson's car roared past the Truckee checking station on US 40 about 8:20 p.m., three hours before it crashed. A pursuing patrol car broke down and abandoned a chase.

Subdividers Urged To File On Water For Use At Tahoe

AUBURN — Placer county will advise prospective Lake Tahoe subdividers to file applications for water with the state water rights board to assure them of a domestic supply.

The move was suggested at a meeting here last week of the California members of the California-Nevada Interstate Compact Commission with the board of supervisors.

Carl B. Meyer, principal hydraulic engineer with the state department of water resources, told the group, "Nevada people claim there isn't any extra water in the lake."

He said these Nevadans, from the agriculture regions served by the Truckee River, have reported they might attempt to stop the taking of water from Lake Tahoe in the future.

"Our hope," said Meyer, "is we will get an agreement among the people in the compact that water will be available for the Lake Tahoe area."

The commission met in Auburn at the request of Placer supervisors to discuss water and sewage problems at the lake, with members pointing out that the problem of water use at Lake Tahoe is closely connected with the problem of sewage disposal.

Regulation Discussed

During the session, A. M. Barton, chairman of the California commission delegation, told the supervisors a weir to regulate the outflow of Lake Tahoe may be the answer to some of the lake's problems.

He said a study now underway is expected to prove a weir will conserve water by preventing greater than needed flows into the Truckee River. Thus, he said, presently wasted water would be available for the water deficient area around the lake.

Most seriously injured were Larry Harcourt, 20, and Cecil Davis, 34, Richmond, who were pinned in their overturned car Saturday at 4:55 a.m. four miles east of Truckee.

Harcourt and Davis both contended they were asleep in the vehicle with a hitchhiker driving. However officers were unable to locate the hitchhiker.

They are willing to give even more of their efforts in assisting individual property owners in the project which is so needed. Committees have been formed, paint dealers have reduced the cost of their product to the minimum and the program is catching on with enthusiasm, promising to be a real community asset. Continued and increased assistance is needed if the goal set is to be reached. From time to time, announcements will be made for community effort in which everyone is invited to participate for the good of the region. Cleanup days, paintup days and celebrations are planned and with the wholehearted cooperation of everyone in the community, this overdue project can be a tremendous success.

Fishing Opens On Donner Saturday As Prospects Good

Change In Regulation By Department Sets New Fish Limit

Special, last-minute regulations have been adopted for the fishing season on Donner Lake, according to Erwin Single, local game warden who has been attending meetings of the fish and game department in Scramento.

The lake opens Saturday, March 28 and remains open until October 31. It was previously announced that the opening would be on Sunday, March 29, but this was changed this week.

Between March 28 and May 15, only five trout or kokanee or ten pounds and one fish, will comprise the limit.

Between May 16 and October 31, the limit will raise to 15 trout or Kokanee, or ten pounds and one fish.

Throughout the open season three trout may be in possession regardles of weight.

Prospects are good for the opening as the unusually warm winter has provided good growing conditions for the trout, Single believes.

The regular season for other lakes and streams in the district opens May 16.

On that date fishermen will have some difficulty determining limits. Placer County, for example, has a ten fish limit while Nevada County has 15. In many areas, including the Truckee and Yuba rivers, this is going to pose a problem of enforcement. The Yuba river winds in and out of Nevada and Placer counties, while on the Truckee, the line is just south of Truckee and fishermen may be puzzled as to where they are permitted 10 or 15 trout.

Further Study Will Be Made On Span For Emerald Bay

Further studies on the proposed Emerald Bay route will be made before a decision is reached as to whether or not it will be a low level bridge across the mouth of the bay or a tunnel arrangement through the treacherous slide area above Lake Tahoe.

This was decided at a meeting of the state park and highway commission in Sacramento last week.

The present road, which was opened recently much earlier than usual because of the light winter, is closed a good deal of the year because of slides and bad weather.

The division of highways, after a thorough study of the situation, has recommended the low level route with a bridge built in keeping with the scenery and giving assurance of a year round highway to the thousands of visitors who annually tour that area.

The division of beaches and parks has opposed the low level route since it would cut through two state parks. This might permit a greater number of people to utilize the park facilities.

Proponents of the low level span have pointed out the dangers of maintaining a road, even with tunnels, on the steep mountain side, where maintenance would be difficult and which route would be considerably longer than the bridge span.

J. W. Vickery, assistant state highway engineer said:

"All-year operation can be provided along the low-level route with reasonable certainty, while such cannot be said for development along the alternate high-level route."

NEVADA'S OLYMPIC FUND IS SLASHED

STRICTLY STRICKLAND

By Bill Strickland

California's representatives and the Far West Ski Association have once again proved they are to be reckoned with in coming ski events. Up at White Pass in Yakima, Washington, Ernie and Day Tschopp's daughter, Smiley, won the Junior National downhill title! That with a fifth in slalom gave her a second in the combined national standing. Dave McCoy's son, Gary, of Mammoth Mountain placed second in the downhill, but took the slalom by three full seconds and as a result, a first in the combined standing. The best junior all around alpine skier in the U. S. is Gary's reward—Smiley is a runner-up for best Alpine—as a 16 year old, she still has a couple more years of junior competition. Two real fine competitors.

Our three Nordic contenders didn't do as well as the Alpine racers. Dan Hedlund placed 19th in the 6 mile Cross Country, Bob Strickland was way back in 31st place and Dave Small 34th. Reasons, of course, will be forthcoming when they return home. Any number of things could have caused their low placements. We'll just have to wait and see.

* * *

The Donner Trail grammar school held their ski competition at Deer Park last week. The results of Jim Winther's Jr. coaching is evidently paying off. Deb Zorich won her intermediate class championship of both schools. Billy Strickland posted the fastest time in the advance competition. Sherman Williamson placed second followed by Keith Saunders all of Donner Trail.

Barbara Lyddane was first in the girls advanced class followed by Bunny Board. Besides taking first places in intermediate girls and advanced boys and girls. The Donner Trailer's brought home a total of 8 medals. Pretty good for a mountain school of thirty students against Truckee's estimated three hundred.

* * *

The usual Easter week crowd is on the Mountain and enjoying some real fine spring conditions. All the resorts are in full operation as are all ski lifts. Fun races—Easter egg hunts—obstacle races and junior racing are all on the agenda for the entire holiday period. So, instead of the usual week-end jam, the crowds are here for a full ten days.

* * *

The Sierra Lakes Club is enjoying a very fine patronage, this, their first winter of operation. The fact that it is restricted to members use only is going to increase its popularity as time goes on.

DONNER SUMMIT NEWS

BY DONNA POWERS

SKI RACE

Students of the Donner Trail School did very well in this year's Tahoe Truckee School District 10th annual ski meet held at Deer Park ski area. The official times of the races have not been given out yet, however, there seems to be little doubt that the school on the hill won. The coming of Easter week has brought many young skiers to the area. Several races of all types have been scheduled for every skier.

POT LUCK

In honor of St. Patrick's Day, approximately eighty residents and members of the Donner Summit Community Club met at the Donner Trail School for a pot luck dinner. Following the delicious meal, the group played bingo raising a total of sixty dollars. Fifty dollars of this will be donated toward the scholarships which will be donated to deserving seniors graduating from the Tahoe-Truckee High School in June.

GOOD NEWS

A report from the Tahoe Truckee School board tells us that we may expect more room in the Donner Trail school. May 19 the funds needed for the buildings will be considered by the voters in the districts. Primarily our needs are for a multi-purpose room and an additional classroom. This, of course, will also mean another teacher. Our increase in enrollment will show the reason for additional space. Fall, 1957, school opened with approximately 40 students, while fall of 1958, 60 boys and girls enrolled. Many of these are brought in by construction families in the area.

EASTER PARADE

The primary students of the Donner Trail School enjoyed very much creating their own Easter hats from paper plates. Friday afternoon they exhibited them in their own Easter parade. These bonnets will be worn by the students to the Easter morning breakfast at the Beacon Hill Lodge.

SNOW REMOVAL

Max Williamson, chairman of the Soda Springs Citizens Committee, reports copies of the resolution concerning snow removal on Highway 40 have been sent to all ski clubs. Every club member in California will be asked by his club to discuss the matter with his legislator either by mail or otherwise.

DANCE CLUB

Cecil Weatherfield was hostess to the youngsters dance club in her home at Donner Summit Lodge. The group who enjoyed the games, refreshments, and dancing were: Debby Zorich, Lynn Aro, Tommy Gangler, Cecil Weatherfield, Royann Weatherfield, and Johnny Heilburn of Lodi.

"And when Jesus had cried with a loud voice, He said, Father unto Thy hands I commend My spirit, and having said thus, He gave up the spirit" (Luke 23:46). These words set before us the last act of the Saviour ere He expired. It was an act of contentment, of faith, of confidence and of love. Pastor Rhoades will develop these thoughts in the Easter message.

Job's question, which was asked thousands of years before he phrased it, "If a man dies shall he live again?" still remains unanswered. Through the ages philosophers and theologians, as well as "the men on the street," have asked this question. The Easter season focuses all our minds, once again, on the question and possible answers. Pastor Taylor will discuss this topic in the Easter sermon entitled, "What Can we Believe about Immortality?"

NEWS NOTES FROM TAHOE

NAOMI McLANE
Box 711, Tahoe City — JU 3-3187

It's been a good week for the baby trade. Mark Thomas Bechdolt arrived at St. Mary's hospital in Reno to join the Bill Bechdolt family. On Sunday, March 15 Kenneth and Lorene Dunn's little daughter, Shelley Rona, checked in at the Tahoe Forest hospital. She was born at 9:17 p.m. and weighed 6 pounds and 12 ounces.

* * *

The nursery school Easter party was a great success. Each little member had asked a guest and called solemnly at the homes to pick them up. Judy Cross came for Brad Jorgensen and a few minutes later Charlene Keehn came for Scott. At the party, Naomi Plew had little bunnies and chickens ready for the youngsters to assemble as favors. The girls were little fragments of spring in the bright Easter dresses. Gloria Jean Day could not be parted from her new hat, purse and gloves for any reason—not even refreshments.

* * *

Jean Callender of Homewood attended a luncheon last week at the Palace Hotel in San Francisco in honor of her sister, Mrs. Harriett Heminover. Mrs. Heminover is leaving March 25 on a three and one half month world tour. Both Ben and Jean will go down on that date to see the President Hoover sail for Yokahama ,the first stop for the trip. Bill Callender will join the family to see his aunt depart.

Howard Guth of Sunnyside is in the Tahoe Forest hospital this week for a few days.

* * *

The Women of the Women's Club of Tahoe are very busy these days preparing 2000 place cards for the National Federation of Women's Clubs Convention which is to be held in Los Angeles this coming May 29 through June 5th. The women have chosen the Olympics, appropriately enough, as theme for their cards. Their next meeting will be a luncheon meeting at the Community Center at 12:30 on April 2.

* * *

Mrs. Don Snyder will spend a few of the Easter Holidays in San Francisco with her two daughters, Sandra and Stephanie.

* * *

There will be a fine get-to-gether of Scouts, Girls Scouts, Brownies and Cubs on Saturday, April 11th for a tree planting day. Chris Burmer, Scoutmaster, announces that all parents and children will be most welcome to come help whether they are in the scouting program or not. Three thousand seedlings furnished by the Forest Service are to be set out in the burned-over area down the Truckee River.

* * *

The Scouts had a good meeting at the Community Hall this last week. Bob Jorgensen brought several guns from his collection to show the boys and gave them some instruction in the use and care of firearms. Ranger Stone from Truckee showed two films: Paul Bunyan Had a Son and Snow Ranger. A Road Side Cleanup is planned for the near future and Chris Burmer also says that the Scouts are in a position to accept a bale or two of hay for their archerly program if any are available.

* * *

Jim Reynold's fourth and fifth grade choir was a highlight of the PTA Program Thursday night. The many different songs were beautifully rendered.

* * *

Cathy Conners and Karen McBride each gave a splendid poem and each was amazingly long to be so excellently memorized. Cathy told of the adventures of poor Tom Twist and Karen the old poem of Marathon. Stephanie Snyder gave a reverent reading of The Lord's Prayer and Alex Cushing of the Twenty Third Psalm. Mr. Reynolds feels very bad, that in the running along of the program, he forgot to call on Chris Meixner who was to give The Drummer Boy. All in all, the parents enjoyed the program very much. Another highlight was the interesting talk given by Miss Jane Cotten, Placer County librarian from Auburn. She delighted children and parents both with her closing reading of Dr. Suess' "And to Think That I Saw It on Mulberry Street."

* * *

For business the PTA decided to remain affiliated with the state and national organization of the PTA. New officers for the year 1959-1960 will be elected next month.

* * *

The Bob McLane family will spend Saturday and Sunday at Bolinas and then a few days in the Bay area before returning home in the middle of Easter week.

What we already know about your 1963 car

The engine of your 1963 car will be lighter and will give you improved performance, including better gasoline mileage.

We know this because Standard's scientists are already developing gasolines of the future. To test them, we use experimental engines installed in current model cars. The engines are obtained from auto makers and modified in our laboratories to match engine design forecasts.

These future fuels are given the toughest possible workout — on the road, as well as on this "indoor highway." Here we can create almost any kind of weather or driving situation at the touch of a button.

Gasolines are tested at varying speeds and engine loads to simulate mountains, traffic, freeways . . . under climatic conditions ranging from 120° desert heat to 40° below zero cold.

Your car of the future may never experience such punishing conditions. But if it does, we'll be ready with gasolines that will deliver all the power and performance built into its engine. Research that leads to new and improved gasolines is one of the ways ***the people at Standard are planning ahead to serve you better.***

NEWLYWEDS SPEND HONEYMOON HERE

Mr. and Mrs. Carroll Jensen and her three sons spent a week at the Truckee River home of her mother Mrs. Harold P. Hill, following a quiet wedding ceremony at Tahoe City.

The family group spent much of the time skiing and will make their home at Redwood City.

Mrs. Jensen is the former Eleanore Hill Claitor and daughter of the late Dr. Harold Hill of San Francisco.

Jensen is a teacher in high school at San Carlos and a director of curriculum at a Redwood City school.

RON CAMERON HURT IN BAXTER MISHAP

Ron Cameron, endorsed democratic candidate for the state senate in Sierra, Nevada and Placer Counties at the April 7th special election, has been confined to his home for a three to seven day period on doctor's orders. Cameron suffered a scarred cornea when a small fragment of gravel dislodged by a passing car struck him in the left eye while he was assisting a motorist whose car had skidded in the snow.

The incident occured near Baxter while Cameron was returning from a weekend campaign tour of Sierra County, where he had visited the Feather River Lumber Mill at Loyalton and contacted individual voters in the Loyalton area.

Confined to his Clipper Gap home by Dr. Thomas J. Cummings of Auburn, Cameron was forced to cancel campaign plans for Grass Valley, Nevada City, Foresthill, and Roseville areas. Some of Cameron's campaign commitments will be filled by his wife, who had been devoting part of her time to her husbands election.

Cameron reported the doctor had stated that the injury was not serious if given treatment and rest.

PROGRESS REPORT

From the Office Of Governor Edmund G. Brown

Economy keynoted the administration of Governor Edmund G. Brown in Sacramento this week.

The governor said he has been informed by director of finance Bert W. Levit that his campaign to save $5 million in state government costs by June 30 is now assured of success.

Levit told Governor Grown the savings will be "at least $5 million."

He told the department of mental hygiene alone will cut $400,000 from its operating expenses and more than $1.6 million in capital outlay "without eliminating any necessary services."

Governor Brown originally asked department heads to trim their current expenses shortly after he took office January 5.

"We are getting full cooperation from department heads," Levit told the Governor. "The final reports on anticipated savings aren't all in, but there is now no question that we will at least reach the goal you set."

His own Department will save about $95,390, mostly in salary accounts, Levit said. The building and ground division has actually abolished 23 janitorial and 8 police posts since January 15.

Levit has assigned department of finance representatives to each state agency to work on the economy program in order to coordinate the savings efforts.

* * *

Governor Brown made three appearances in Washington last week on problems of vital interest to Californians.

He asked congressional approval of the San Luis Reservoir to be part of the state-wide water program—before the Senate subcommittee on reclamation and before a subcommittee of the House Interior and Insular Affairs Committee.

Bills before Congress provide for Federal-state construction of the reservoir. Governor Brown said the state will pay 60 per cent of the $400 million cost.

"No state has ever made a comparable proposal," he said.

In a speech before the Urban County Congress of the National Association of County Officials, Governor Brown announced he plans to establish a state-wide commission on metropolitan problems.

Governments should abandon the idea of rigid boundries and think in terms of serving community needs, the Governor added. He described as "wasteful" the splintered governments that grow up in suburban areas.

* * *

Governor Brown's bill to establish a fair employment practices commission cleared its initial hurdle in the senate last week.

The senate labor committee gave a "do pass" recommendation by a vote of 5 to 2. It already has passed the assembly.

"The bill seems certain of passage in the senate, since 26 of the 40 senators have signed the bill as co-authors," Governor Brown said.

* * *

Approved by the Senate 32 to 2 and sent to the Assembly for action last week was Governor Brown's bill to establish a consumer counsel.

"For too long, consumers, you and I, have been forgotten in government," the Governor said in praising the action of the senate. "No one has represented us befor the many boards and commissions whose actions affect our pocketbooks."

SOROPTIMIST CLUB HOLD LAKE MEETING

KINGS BEACH — The Soroptimist Club of Lake Tahoe met March 17 at the Crystal Bay Club. Vice-President Ruth Mizner presided since President Mickie Mandeville is in Hawaii for the month of March.

It was decided to correspond with an overseas Soroptimist Club in Germany as part of the international policy of Soroptimism.

Bev Brooks, who is donating time to paint the curtain for the club show, "The Drunkard", made a layout for the advertisement selling. This was shown to the group for approval. All proceeds from advertising on the curtain and from the show will be given to Tahoe Forest Hospital.

Several cast members of the play were guests of the Soroptimist ladies; Marge Boyer, who plays the heroine, Holly Wilson, who plays Mad Agnes, Virgina Ferrier, the mother role, and Mazie Carnell, who will sing a number in the olio.

The luncheon group were entertained by Eileen Johnson singing "Take Me Home Again, Kathleen", in honor of Saint Patrick's Day.

2,025 ACRES FOREST LANDS WITHDRAWN

WASHINGTON — Congressman Harold T. (Bizz) Johnson, second district, California, has received word from the department of interior that approximately 2,025 acres of public lands within the Tahoe National Forest are being withdrawn at the site of the 1960 Winter Olympic Games at Squaw Valley.

The lands, withdrawn for general public use are being used for the construction of ski lifts, ski trails, bobsled runs, housing and other facilities. Following the games, the area will be used for public recreation and resort purposes.

It was pointed out that withdrawal of the land closes the area for all of appropriation under the public land laws, but not the mineral leasing laws.

While in the state senate, Johnson led the drive to establish the Winter Oympics at Squaw Valley. Among other things he introduced enabling legislation to bring about the games, legislation providing for the acquisition of necessary lands, and helped obtain funds for a four lane highway (Highway 40) leading to the site.

FORESTHILL MAN IS TO AID BEQUETTE

Carl Thompson of Foresthill has been named administrative assistant in the office of Albert F. Bequette, Placer County superintendent of schools, replacing George "Bud" Alman, resigned.

A native of Grass Valley, Thompson began his teaching career at Auburn Union Elementary School in 1950, leaving there in 1955 to assume the principalship of Ophir Elementary School. In 1957 he was appointed district superintendent of Foresthill Elementary, the position he now holds.
